LIGHTING

POWERFUL SOLUTIONS IN ILLUMINATION

### **rel·e·vance/ reləv(ə)ns**

the quality or state of being relevant : relation to the matter at hand.

In 2018, relevance will be our focus. As the world gets smaller, the pace faster and the demands greater we have come to realize that we must closely examine our relevance. Webster's aptly defines the term relevance, "relation to the matter at hand", which segway's one into the question of what exactly is the matter at hand? What demands are being placed on today's lighting professionals?

There is no question that technology is more relevant than ever in the industry. The consumer at large is finally embracing LED technology, whilst lighting designers and manufacturers are fully grasping the vast possibilities that LED technology has brought to our industry. In addition, at the epicenter remains design. Today's worldly consumer seeks luminaire designs that are interesting, and often times a design focal point in their space. LED is inspiring a new interpretation of lighting and the design options are infinite.

Access Lighting is striving to stay true to our core. Our collections are contemporary as ever, with clean lines that reflect iconic contemporary designs revealed in ways we never dreamed possible prior to the advent of LED lighting. We seek to keep a good portion of our assortment timeless and less trendy than our contenders, yet sprinkle in a good selection of exciting, style driven choices.

On the technology front, Access Lighting continues to source quality, cutting-edge technology that educated lighting professionals can appreciate and share with their customers. It is imperative that the consumer begins to better understand the intricacies of the ever evolving developments in our industry. Knowledge truly is power in this instance, and the vehicle by which the consumer will come to appreciate and value the extensive number of knowledgeable professionals we have in our trade. Our industry must rally together to make it understood that expertise is crucial to bring a space to life, verses simply bring light to a space.

At Access Lighting more than ever...

We believe in integrity, honesty and exceptional customer service.

We believe in standing behind our product.

We believe in face time and making ourselves available to our customer.

We believe in offering the necessary support our customers require before and after a sale.

We believe that our customer is our partner, and that together we can face any challenge.

Sincerely,

A handwritten signature in black ink that reads "H. Rosenblatt". The signature is written in a cursive, flowing style.

Harry Rosenblatt  
Chairman and CEO

## ICONOGRAPHY

The following icons are used throughout the catalog to assist in identifying characteristics of each fixture

Fixtures bearing these marks are certified by these accredited testing laboratories, assuring the construction and electrical components meet or exceed all safety requirements.

Title 24 (T24) Certified. Searchable on the California Energy Commission Database.  
<https://cacertappliances.energy.ca.gov/Pages/ApplianceSearch.aspx>

Access Lighting is a proud Energy Star Partner and all fixtures bearing this mark have been tested and certified as Energy Star compliant.

Access Lighting Possess the Illuminating Engineering Society (IES) File Used by designers to calculate the Lumens needed to cover an area by specified light source. Indicates the Delivered Lumens.

Fixtures bearing this symbol meet or exceed the requirements of a 4" projection to comply with the American Disability Act.

Emergency Lighting Luminaire. Battery lasts for 90 minutes minimum. Meets the National Electric Code (NEC) minimum Lumen output requirement in battery mode. Certified to UL 924.

Fixtures bearing this symbol are coated with a durable process suitable for use in high Saline conditions and installations that incur severe weather conditions.

Fixtures bearing this symbol are part of a family, related product on Page # as shown in the box.

Assembled in the USA with US electronics and imported parts

To identify the various lamping options available

**LED fixtures are highlighted in Green**

**Fluorescent fixtures are highlighted in Blue**

Quick reference Lumen equivalencies  
 LED vs Incandescent

| Incandescent | Lumens | LED | Lumens |

## VORTEX COLLECTION

Inspired Gold, a rich hand painted gold with black undertones provides VORTEX with an unparalleled elegant demeanor. Alternatively, VORTEX in brushed steel is undeniably a modernist masterpiece. Set against 3000k swirls of LED light, encased in a white acrylic cover, the VORTEX impact is magnificent. In perfect symphony the VORTEX has a Fandelier option enhancing the already palpable sense of movement that emanates from this collection.

### Vortex Dimmable LED Pendant

The motor is the core part of the fan and the most expensive in all the components. Our fans utilize a DC motor. Fan motors are divided into two major categories; AC motor and DC motor. The main problem is common AC motors have big power consumption, high noise, and large calorific value. The DC motor has begun to popularize in recent years as they use 70% less energy in most cases. Compared with an AC motor, DC motors have obvious advantages in terms of noise and power consumption. A DC motor has become the industry standard among the high-end fan. DC fans are almost whisper quiet and last two times as long in some cases. DC motors have better speed variation options and start and stop at faster rates compared to AC motors. All of our fans utilize DC motors because as you know Access Lighting is committed to energy efficiency.

## GRAND COLLECTION

GRAND Collection exudes feelings of grandeur and sophistication whilst staying true to classic contemporary design. A soft light radiates from the center of the stunning ellipse clear glass shades; set on superbly crafted brass finished hardware or brush steel. The enviable 12 light chandelier is accompanied by a 6 light round chandelier, 6 light linear chandelier and a 1 light wall sconce.

## WIRED COLLECTION

Retro mania inspired, WIRED is just as comfortable in a hardcore industrial setting. Minimalist in design, WIRED is big on personality and details. Air cable and a grip lock system afford chic mounting and ease of adjustability. The offset socket sits on a paper thin plate that accommodates the geometric wire spokes further amplifying the contemporary design. Mid-size or mini pendant with associated flush mounts in equivalent size and shape.

## THE DISTRICT COLLECTION

Join the revolution and go industrial with THE DISTRICT. Reminiscent of early factory luminaires, particular attention has been paid to the details in THE DISTRICT. Mixed black and brass hardware generate a bold and distinctive presence that elicit feelings of early 20th century design. Generate ambience with a solid metal shade or capture greater lumen output with clear glass shades.

### The District Wall Sconce

| Finish: BGL          | Glass: CLR | Included: ST-19 Vintage LED Lamp | Certifications: Damp, Ceiling |        |          |                              |  |

## D'or COLLECTION

This captivating collection brings hand crafted glass evoking warmth sensations and a charm of its own. Each piece of glass is chromed on the outside, and hand painted on the inside. Lines are individually etched into the glass, allowing hints of luxurious gold tones to percolate through the exterior.

## RIPPLE COLLECTION

Comparable to birds captured in mid-flight or the gentle swell of water in the ocean, RIPPLE moves beyond lighting into its future where form is as relevant as function. Dedicated solid state lighting, ease of adjustability, finished in a thoroughly modern flat white.

## LAYERS COLLECTION

Lift your spirits, and dress up any room with the stunning LAYERS Collection. The contrasting coupling of a round frame topped with square layers, and inset with horizontal lines, brings texture to the forefront. Stark white upon white, an industrial chrome set on white, or regal gold upon white provides a multitude of applications in a variety of locales. This extensive collection allows for perfect pairing in your open space.

## METEOR COLLECTION

The METEOR collection is out of this world with a 3-dimensional effect generated by the curved acrylic medium. Soft pillows of light appear to be suspended in this LED collection that intrigues the onlooker. Equipped with a multitude of LED modules, METEOR lends itself well to placement over a nook table, dining room in pairs or triplets, or as an inviting entry piece.

## TARA COLLECTION

It's the little details that make all the difference, and the details are perfectly depicted in the TARA Collection. Contemporary style is obvious, with modern metal accents in all the right places, and in stark contrast to the refined opal glass with clear openings. The solid rod hanging mechanism and energy efficient options make TARA an obvious choice for commercial applications. Place TARA over a table or on a staircase landing, and instantly bring artful, stylish design to your space.

### Tara Pendant

## NIDO COLLECTION

Crafted by a Spanish artisan, the spectacular NIDO Collection is a timeless beauty. Glass shades fashioned into a modern oblong form, are delicately suspended from a low profile rod in an extensive range of semi-flush and pendant luminaires. Detailed elements, including canopies and back plates that mimic the contour of the glass shades equip this collection with unrivaled style and grace.

## PIZZAZZ

The PIZAZZ Collection oozes with modern European style and cosmopolitan culture. The allure of PIZAZZ is rooted in the details. The bent stem perfectly weighted to facilitate the balance of the shade. The shade finished in flat black with a starkly contrasting inner gold surface. The adjustable spider pendant mounting mechanism. All of these elements combine to take this luminaire well beyond mainstay modern.

## ASTRO

This is a stunning dome pendant with two color combinations. For a cool, stark application the outer white/inner silver combination is a natural choice. In contrast, the outer black/inner gold combination is warm and inviting. Regardless of your choice ASTRO is a focal point extraordinaire.

## CALLISTO

CALLISTO'S paper thin glass and distinctive shaped, line glass, bring to mind visions of the traditional Japanese lantern. To further add to the Zen like qualities of this simple, subtle pendant is the crisp white, unadorned finish on the glass shade.

## NOSTALGIA

Iconic, Nostalgic, Classic – these are the cornerstone of the NOSTALGIA collection. Available in flat or shiny black, an inner gold or white finish fashions a completely different expression. Three classic shapes are available in this collection.

## ESSENCE COLLECTION

Copper, dubbed an essential element for both one's health and a myriad of domestic, industrial and high tech applications, is back on the scene. Whether brushed or full gloss, the allure of copper is irrefutable. The ESSENCE Collection lends itself to settings from the nostalgic to contemporary which is always warmed with a touch of copper.

## MIA

MIA is so named for its softer interpretation of a fully functional flush luminaire. The fabric drum, matching metal trim and central knob, balance to deliver an attractive upscale flush mount. Not to be underestimated on the technology front, MIA delivers approximately 1800 or 2200 lumens of solid-state lighting at 90CRI, ideal for commercial applications.

SOLERO  
Emergency  
Lighting Technology

This fixture is designed to provide lighting in the case of a power outage or natural disaster. The design elements of this fixture make it aesthetically pleasing while not compromising safety in any way.

The Emergency Light is designed to provide lighting for at least a minimum of 90 minutes.

## LUCID

Lucid couples technology and contemporary design at an affordable price point. Set in a decidedly modern chrome housing, the transitionally shaped acrylic diffuser portrays a softer modern air. A dedicated LED module equips Lucid with 1000-2100 lumens of light at 90 CRI and 3000K. Lucid - a flush mount that conveys easy contemporary design.

## DISC

At a mind boggling 1/2" depth, DISC capitalizes on the low profile design possibilities that LED technology provides. With 800 lumens or 73lm/watt emanating from a mere 5.5" diameter, the lumen output is as impressive as the sleek design. Available in three sizes, and three finishes; brushed steel, bronze and white.

## PERCH

Resting on a seemingly suspended bar, a simple unadorned glass shade houses dedicated solid-state LED lighting. Transitional in nature, PERCH boasts clean lines that straddle both contemporary and more traditional applications.

## BAYSIDE

Strong, architecturally influenced BAYSIDE, brings a multitude of features to its user. BAYSIDE offers either a single downlight option or larger bidirectional choice. Dedicated LED boards provide between 66 and 70 lumens per a watt (model dependent) of pure LED light. Our marine grade finish provides protection from harsh coastal conditions, available in a bronze or satin finish.

## TUXEDO

At a mammoth 26" or 36" height, TUXEDO conquers both appearance and task. Dedicated solid-state LED lighting provides upwards of 2700 lumens of crisp even light. The acrylic shade is minimally enhanced with a slender metal cage and fine mesh accent, dressing TUXEDO up to impress whilst successfully lighting the space.

## NEPTUNE

Rectangular sophistication with a geometrically inspired metal decoration defines NEPTUNE. Marine grade, and available in two different finishes, a contemporary satin or transitional bronze, certain to cater to your design requirements. Total shade illumination is achieved with ribbed frosted glass. Select from three different lamping sources; LED or incandescent to meet your application needs. NEPTUNE, warm and welcoming with contemporary style.

## SANDPIPER

SANDPIPER is the ideal luminaire to bring light and effect to an exterior space without detracting from the design elements of the space. Basic cylindrical design, excellent lumen output, 90 CRI all assemble to mark SANDPIPER as an excellent solid-state lighting option for the great outdoors.
