Luis Ruesga
CEO of Zuo Modern

Zuo has always been the brand you can depend on for a fresh approach to modern. Our design team obsesses over each product to make sure it exceeds your expectations. From sleek and contemporary to industrial and edgy, we deliver on our promise to create innovative collections of furniture, lighting and décor that punctuate a space with a cool factor that doesn't cost a fortune. We build our furniture to last with many of the pieces appropriate for commercial use through our Hospitality division.

Strong connections with factories around the world enable us to flex with a changing world and business climate. Our unwavering commitment, led us to launch a furniture collection from our second home, Mexico, allowing us to offset full dependency on overseas production and avoiding mid-year price increases due to tariffs.

Always on the cutting edge, our savvy, Zuo technical crew has implemented up-to-the minute advances that allow you and your customers to view us in ways that was not imaginable fourteen years ago! Bringing you 3D models with 360 views and apps for your smart devices makes purchasing our products easier than ever.

Our bottom line hinges on your satisfaction - we aren't happy unless you are happy. We invite you to contact us with your feedback, ideas and stories about Zuo (we know there are many!).

Thank you for your business, and join us as we celebrate the 2nd edition of our premier lifestyle catalog!
